**Description of Issue:**

Based on feedback from customer, the D5366 cargo net needs to be modified by lengthening the D5366-31 cinch straps (integral to net webbing).  
 Based on feedback from customer, the D5289 Cinch Straps need to be modified so that the D5296-1 overcenter buckles on the D5289-043/-045/-047 is located more to the side of the cargo net when loaded, as opposed to them ending up on the top of the net.

In addition, the D5339-1 carabiner was recommended to be replaced with hooks because operators find it hard to unclip the carabiner while wearing gloves.
